

Letter to President Bush

President George W. Bush
1600 Pennsylvania Ave NW
Washington DC 20500

Dear President Bush,

Wanted to take this opportunity to say a big thank you, to you and your family for doing such a wonderful and courageous job. We love you and yours very much and are so proud of you. Your labor of love not only shows but is appreciated. You have not only made a statement but have set an example for us all to follow. Your faithfulness, loyalty, and unselfish giving is nothing short of remarkable. Especially during some of the most adverse times our country has ever known. Under some of the most horrific opposition and through it all setting an example of laying your life down for what you believe and fighting for the protection and provision of this country (even for those who would oppose you).

Just as you have encouraged us to **never forget September 11th 2001**; we will never forget your heroic faithfulness to God, Country, & the World as a whole. Your encouragement to stay the course in Iraq, dribbled down into all of our lives- to stay the course in every worthy thing we do no matter what the cost. We definitely are a stronger nation, a better & safer world because of the example you have set. Know this, that the principles, and projects you have implemented were not, are not, and will not, be in vain. Be confident in this very thing, He who has begun a good work in you and through you, will be faithful to perform it.

As a matter of fact that is why approximately half the country voted for you in the last three elections. That's right, (even in this last election) approximately half the country voted for the stands, principles, and projects, that you have imparted.

I not only salute you but encourage you and all of the world to see the polls as I do. I believe in my heart that a good majority of us that voted for McCain and Palin were voting for the work that you have begun & the principles you stand for as well. Therefore, that being the case your approval rating is much, much, much higher then you are being given credit for. We, who share many of your views, principles, and beliefs will continue to fight with every fiber in our body and every tool given to us; beginning with prayer to keep this county the greatest nation in the world, based on the principles our forefathers intended. You are a hero to multitudes. Thank You for letting your light shine.

The Spirit of the Lord would say, "Well done my good and faithful servant, in whom I am well pleased." I believe your greatest days are ahead of you and your value to this nation & the world is priceless. Thank you for hearing our heart and we send a special prayer and thank you to your wife, and all of your family members & friends who have rejoiced when you have, and hurt when you have.

I believe it is God's will for the world to know how we feel. Therefore, I am posting this letter on my web site, & am believing for many others to show their appreciation also. I will certainly do everything within my God given power to let everyone I can, know how we feel and to celebrate you, **Mr. President, George Bush, as one of the greatest Presidents this world has ever known.** Because of the stands that you and our forefathers have made, I am proud to be an American. So we salute you and we will continue to pray for you and yours. May the rest of your life be the best of your life. In His service & From the Heart, Pastor John N. D'Alesio
